Opposition Papers Denounce the African Agreement With Germany.

The Berlin Press Generally Approves the Amicable Adjustment.

"Pall Mall Gazette" and the "Chronicle"-A Serious Friction Be tween England and France-Cardina Manning Thanked by Parnellite Members of Parliament-Leader Smith's Proposition-Triumph of the Austrian Strikers-Count Kalnoky Seriously Ill-The Quebec Elections-Fereign News,

LONDON, June 18 .- As may be supposed, the of the East African dispute beeen England and Germany, in the manner winted in the agreement between the two erajust published, is seized upon by the ents of the Government as a club with absurd to assume that the Opposition d have been satisfied with any settlement Government might make, even though i involved the presentation of the whole German Empire to England, i cannot be denied that they their strictures in the very general belie that England has surrendered too much. everal of the papers arraign the Government on this charge, notably the icle, which pays its respects to Lord sbury in a violent leader. In its concluding passage the Chronicle says: "Lord Salls ury has fixed upon the brow of the Imperial Unionist party an indelible brand of ignoiny which gives the cue to other powers to demand similar concessions."

PAVORABLE COMMENTS. The Times, commenting on the cession of Heligoland, says it thinks England was very fortunate in possessing a bit of land valueless to her for which she secured such an adequate on. The Standard thinks that the East African settlement with Germany, while ing to boast of, gives England nothing for which she need blush. It is not an ideal dution of the problem, but perhaps it is as good as it was reasonable to expect. German riendship is a valuable asset, and like other precious things it must be purchased with a price. The Daily News admits the value of the protection of Zanzibar, but thinks the ervatives are more likely to be dissatis-The Telegraph says the concession of Heli-goland to Germany will raise continual regrets, but that the agreement should be lived with thankfulness in that so thorny a problem can be solved in a manner honorable alike to the pacific intentions of both

A BAD BARGAIN. LONDON, June 18 .- The Pall Mall Gazette, commenting upon the settlement of the ques-tions between England and Germany relative to African territory, denounces Lord Salisoury's surrender of the island of Heligoland to Germany in return for German concessions in Africa as shameful, but says that the an nouncement of the settlement was admirably ramatic. "Nothing" the Gazette says, could be more abject, but Lord Salisbury is an artist in abjectness. He anyounced his sedan on the auniversary of the battle of Waterloo." The St. James Gazette says: "The agreement is a bad bargain. be the duty of Parliament to reject she bill providing for the surrender of Heligo-land to Germany." The Globe says: "Lord they are ample. England gains far more than chief point in the interior of Africa we have vassly strengthened our control of the East coast. If Germany is satisfied we have every son to be more so. The establishment of a tish protectorate over Zanzibar is a handsome set-off to the surrender of Heligoland." THE BERLIN PRESS.

BERLIN, June 18 .- The press of this city very generally approves of the settlement agreed spon by Germany and England with regard to African affairs. Both governments are con-gratulated upon the amloable adjustment of all disputed points, and the epinion is expressed that the result will establish the best f relations between the two great powers in the near future and guarantee the continuance of peace. The North German Gazette character all were victors and none were yanquished.

#### Cardinal Manning and the Irish.

LONDON, June 18 .- Sixty Parneilite members of Parliament called on Cardinal Manning to-day and presented that prelate with an address recognizing his great services to Ireland. In reply to the address the Cardinal said he had great hopes for the future of Ireland, and believed that they would be realized at no distant day. He had not liked Mr. Gladopposed it, but he had rejoiced in the Liberal did how for many years England had drained

A CRIMINAL COURT OF APPEALS. England proposes to follow American expeals, more especially for capital cases. Popdar disapproval of recent decisions of the ne Office, to which the only appeal now lies, gives much force to the argument in or of the reform. It is the general public ression that capital cases are dealt with too hastily and often unjustly.

MR. SMITH OVERSANGUINE. The Post thinks that Mr. Smith is oversan guine about the business he will be able to ansact during this session of Parliament Commenting upon Mr. Smith's proposition for bastening legislation, the Daily News says action will only hasten an appeal to the ountry. The Times approves of Mr. Smith's sale, but regrets his attempt to put ord urges the Government to take a firm stand. It says the Government must pass ising and tithes bills this session and

The Quebec Election.

Fy Telegraph to the Post-Disparcis.

QUEBEC, June 18.—Premier Mereler and his
Government were returned to power yester-This shows a large ministerial gain, Mer cler's majority in the House recently dissolve having been 18. Mercler declared on Sunday that he would have a majority of 20 to 23 so that the result has exceeded his expectations. The late boodle developments were the main feature of Mercier's opposition. In rural constituencies the votes of simple French Canadian peasantry were caught by the pies that Mercler was the friend of the Catholic Church, had returned to the Jesuits their confiscated estates, and had received from the Pope the highest hon-ors ever accorded to a layman in America. This argument lost Mereler almost the entire Canadian influence. The majority of the ionists voted on the Conservative side. Opponents of imperial federation, advocates of abolition of federal right of veto inprovincial matters and all Democrata and annexationists voted for Mercier. The loss of the Province of Quebec to the minion elections is considered a severe blow upport from Quebec and who has no more the more cause for alarm in that Ontario, New clared against the Conservatives. The Grand Trunk Rallway Co. gave Mer-cler considerable assistance, They were actuated in this by a desire to be revenged upon Sir John Macdonald for his lavish supply of Federal subsidies to the Canadian Pacific Railroad, also by a sense of gratitude to Mercier for a heavy provincial subsidy to one of their branch lines, the Champlain Junction Ratiroad. Two of Merand Commissioner of Agriculture Rhodes-are Meanwhile, the opposition has lost nearly al its chiefs, including the leader, Mr. Tillion.

Archduchess Marguerite's Abdication.

COUNT KALNOKY SERIOUSLY ILL. Count Kalnoky, Minister of Foreign Affairs for the whole empire, has been attacked by a chill. His condition is serious.

Friction Between England and France. PARIS, June 18 .- The insistence of France that resident British subjects of the second generation in that country shall be subject to military duty, although slight in itself, is the cause of irritation between England and France. There is a large British colony in France, some of them settled there since subjects, and the sudden drafting of the sons and grandsens into the uncomfortable existence of a French conscript has shaken up the exiles tremendously. There is no help for them, however much as they may be disgusted with the situation, and in the event of a connict with Great Britain their lot will be unenviable indeed.

Dominion Doings.

OTTAWA, Ontario, June 18 .- At last night' session of the General Assembly of the Pres byterian Church in Canada, now being held here, Dr. Armstrong presented the report of the Committee on Sabbath Observance. In his introductory remarks he alluded to the Sunday visit of the Duke of Connaught t Niagara Falls as a sad profauation of the Lord's day and a very bad example.

Train Men Drowned.

TORONTO, Ontario, June 18.—An accident coursed on the Canada Pacific Railway last miles east of Toronto. A washout was re ported on the road, and an engine with fiv men was dispatched to repair the damage. Coming suddenly upon the break the engine frowned. The men drowned are:

JOHN WANLESS, bridge Inspector. JOHN ATTSEN, engineer. E. OLIVER, fireman.

LOTT, section man.

WASHINGTON, D. C., June 18 .- The tariff bill was reported to the Senate from the Com-nittee on Finance to-day. No report has been mittee on Finance to-day. No report has been prepared by the committee, and no estimate of the increase in the revenue resulting from the changes made. The understanding is that the bill will not be called up for discussion until about July 1. A member of the commitmittee stated this morning that the bill as reported, with the exception of the agricultural and wool and woolen schedules, was the same substantially as the Finance Committee's bill of 1888. The sobacco schedule is unchanged. In the sugar schedule the bounty of 2 cents per pound is extended to maple sugar. No bounty is to be given for less than 5,00 pounds of sugar annually. A penalty of 45,000 fine or less, or not more than five years' imprisonment, or both, is provided for fraudulent applications for bounty. A duty of 5-10 cents per pound is put on sugars between No. 13 and No. 16 Dutch standard (free in the House bill) and the duty on sugars above No. 16 increased from 4-10 to 6-10 per pound. The chief changes are in the earthenware, metal, agriculture and sundries schedules and the schedule of flax, hemp and jute. The duty on boxed oranges, lemons and limes is reduced one-half (from the rate in the House bill); barley, from 30 to 25 cents a bushel; barley mail, from 45 to 40 cents; cabbages, from 3 cents to 1 cent each; rice flour, from 14 cents a pound to 4 cent; dried peas, from 5 cents to 2 cents a pound; cleaned rice, from 3 cents to 1 cent each; rice flour, from 16 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; uncleaned rice, from 3 cents to 10 cents to 1 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; uncleaned rice, from 3 cents to 1 cents a pound; the House bill, and apages.

under glass.
The duty on steel billets valued at 18-10 cents per pound and less, is reduced 11-10 cents on each class. The duty on flax not hackied is made \$20 per ton, instead of 1½ cents per pound. The duty on hackied flax is made \$40 per ton instead of 4 cents per pound.

rived in the city and registered at Southern. Mr. Laton has just returned from a visit to England, Gormany, Belgium and France, he went for the purpose of ascertaining the best methods to be adopted for extending the use of American corn in

Laton, "to see so many people living on cheap food, and continually seeking for some thing cheaper, and yet refusing to make use o product, when its nutritions qualities are taken into consideration, that is known in the world. Among the poorer classes, especially those of England and Germany, the tood question is always one of paramount importance, and they seek for cheap food with an eager no conception. What we would regard as a nsignificant difference in price the Eu look upon as a matter of the greates with what strikes an American as pa thetic attention. The workmen as a gen eral thing are by no means pennices the majority having a neat sum in bank, and they are not driven to the system of purchases in very small quantities, which is the bane of the poorest class in this country. But they are ever on the alert to save five cents in the price of their food, and whenever the makes is low, the purchases by the workingmen are heavy.

the consequence has been that we have been burning corn that Europeans were in great need of .

"I am convinced that this state of affairs is now nearing its end. The Paris Exposition, with its free American corn kitchen, gave us a great lift, as has been proved by the demand that has arisen for our corn. The people ate our corn bread, tried our corn meal in its various forms, and thousands were convinced of its value. The consequence is that during the present year we have shipped more than 80 per ceat more corn abroad than ever before during a corresponding period. These figures would fall if their full significance if they were not explained. In former years almost all the corn sent abroad was used for fodder, and when horse and cattle feed was low abroad there was no market for us. The increase means that that much more corn was used for food for workingmen's families, and this is only the entering wedge. I spent several months in the poorer quarters of the European cities, towns and villages, and believe that I did a great deal to help break the prejudice against corn. The work. I found, was half done, as thousands or families are now using corn that never did so before. When a fair commencement is made, the general adoption of so good a food is sure to follow. This means a great deal to the farmers, and to the New Orleans shippers, but is more important to &t. Louis than to any other city. From its location, and its rail and river facilities, this city cannot fail to be the great corn shipping place of the country. Europe can take up all our surplus products, and within three years those who have investigated the situation believe that it will do so. This means a general revival throughout the corn bett and a great addition so the export trade of St. Louis."

At the same time the trip bell away down in the mine rang out loudly. Many thought the men had reached it to give an alarm as, even if alive, they would have been obliged to traverse at least 500 feet of flame before they could have reached the bell. It was found after that a neavy fall had occurred in the main slope and had shut off the draft. This had turned the smoke and heat back into the chambers in such volumes that no man could live. The heat in the Mahoning drift is growing more intense, and only an occasional blast from the fan makes their work bearable. #### THE IMMIGRANT WAR.

ALL THE TRUNK LINES TAKE A HAND IN THE SCHAMBLE.

Agent Donne Anthorised to Cut Rate

FORK, June 18.—The trunk lines yes-NEW YORK, June 18.—The trunk lines yesserday authorized their joint agent at the
sarge office to take a hand in the scramble for
minigrants which had been lately confined
to two or three roads, and to pay commisions to any one who can obtain by threat,
orce or entreaty, business for the joint bueau. The old-time spectacle of flerce-looking men uttering wild cries and dragging immigrants from different parts of the Battery
of ticket offices, and there receiving \$3 per ticket offices, and there receiving \$3 per ad for them, will be seen again in the First Ward, as a war between the "outside" immigrant offices and the Joint Bureau has beendeelared. A way was given in last Tuesday's Herold. The has an immigrant pool. The business coming to the pool office is divided evenly by the roads. Not satisfied with the percentage, two or three lines have skirmishers who embezzle as many immigrants belonging to the pool as they can get. Out of a party of immigrants each road is entitled to one. If its enterprising agent can grab the whole eight his road is seven points ahead of the game. There is a rule that third-class or immigrant tickets shall be sold only at the barge office, but the akirmishers get over this by selling second-class tickets at third-class rates. The second-class rate adds \$17 to Chicago and sbird-class tariff \$18, so such a transaction in-volves a cut of \$4 besides the commission paid to the skirmisher. Joint Agent Doans, at yesterday's meeting of the Trunk Line Passenger Committee, reported that the Dela-ware, Lackawanna & Western and the Ontario & Western railroads were carrying off a large percentage of the immigrants by selling them second-class tickets outside the barge office. Before Mr. Doane could get hold of the immigrants, they were grabbed by boarding-house keepers and mysterious persons who rushed them around to places where they were induced to buy Lackawanna

where they were induced to buy Lackawanna and Ontario & Western tickets. The boarding-house people got a commission out of this. Mr. Doane declared that he was gradually losing his trade. The funny part of it is that Mr. Doane represents the Lackawanna and the Ontario & Western just as much as he does any other road, and both of them have sworn with uplifted hands that they will not compete with the joint office or pay commissions. The committee decided that the only thing to do was to fight. They authorized Mr. Doane to pitch in and buy immigrants, as some of the roads are doing. This is the resolution that was passed:

"Resolved, That, with a view of securing all the immigrant business, the joint agent be instructed to pay such commissions as are necessary to secure the trunk lines and their conservative connections as much of the business as possible, in order that this business may be handled and be distributed in accordance with the rules of the clearing-house."

The price of immigrants will now go up, since two interests are in the market bidding for them, The "outside jarencies" are prepared to outbid Mr. Doane, and it is probable that they will get as much of the business as they have been having. They have working in their interest a syndicate of first warders who bractically control the avenues of this class of trade. The resolve of the rtunk lines to pay commissions is the surrender of a principle that Commissioner Tuttle worked months to establish. It will prove to be another of the elements that are making the trunk line situation so gloomy.

#### The B. & O. Stock,

By Telegraph to the Post-Diaparca.

Philadelphia, Pa., June 18.—The syndicate that recently purchased the B. & O. Railroad stock held by the City of Baltimers and Johns' Hopkins University, has come to an agreement with the Garrett estate by which the stock held by both parties is to be pooled for a term of three years. Of the 47,000 shares purobased, 18,000 come to this city, 12,000 go to the Elchmond Terminal people in New York, and the balance is distributed between Baltimore and Pittsburg. The Philadelphians are interested in the Reading Raliroad. In Pittsburg Harry Oliver and Andrew Carnegle, who control the Pittsburg & Western road, are the principal stockholders, and in Baltimore local capitalists are concerned. Persons who are identified with the Northern Pacific Railroad are represented in the deal. This is the composition of the famous Bacon syndicate. The aim of Mr. Bacon, who engineered the deal, was to get the Richmond Terminal, Pittsburg & Western, Northern Pacific and Reading inferested in the matter, although it was distinctly understood that no piedges or promises would be made. The only condition was upon the buyers—that they should pool their stock for three-years and should give an irrevocable proxy for that period to President Charles F. Mayer. White nothing has been arranged in the way of connections, it is well understood what will be done. A short line will be built from the B. & O. metropolitan branch across the Potomac River to connect with the Richmond & Danville system. This is expected to throw a great deal of all rail traffic over the B. & O. hines direct toward the north and also northwest. In connection with the Pittsburg & Western, a new short route—is to be constructed between Baltimore and Chicago. It will be over the main line to Cumberland, thence to Pittsburg, thence over the Pittsburg & Western, a new short route—is to be constructed between Baltimore and Chicago. It will be exeen, a new short route is thirty miles shorter than the one mow in use and has the additional advantage of passing through Pittsburg. It will be used for fast passenger are fast freight trains. At Chicago the B. & O road stock held by the City of Baltimore and Johns Hopkins University, has come to an

#### A Sensational Suit.

COLUMBIA. S. C., June 18 .- David Riser of here vesterday that the Charleston, Cincinbere yesterday that the Charleston, Cincinnati & Chicago Railroad is insolvent. Mr. Riser has begun a suit in Massachusetts against the construction company which is building the road. He says he was the original promoter of the road, how known as the Three C's, and owned most of the material of the concern and that he employed R. A. Johnson of faugus, Mass., to form a syndicate and secure the capital wherewith to build the road. He went on to Washington in 1884 and met Col. Johnson in company with E. Howard. The latter represented himself to be the agent of the Massachusetts & Southern Construction Co., its treasurer and director. He represented the capital as \$250,000 cash paid up, and gave references as to himself. The references being satisfactory, Mr. Riser entered into an agreement with Howard, as agent of the construction company, and transferred all values he possessed connected with the road, including the franchise, valued at \$5,000,000. After the company had secured this the greenment was repudiated, and it is claimed that Howard was not the company authorized agent, hence comes the suit. Emissand the greenment was repudiated, and it is claimed that Howard was not the company authorized agent, hence comes the suit. Emissand legal counsel are engaged on both aideand the case will be tried in the courts of Massachusetts. Gen Butler and D. C. Trescott of Boston have been retained for the plaintiff. The charge is that the construction company had not \$1 of legally paid up capital, and that Gol. Johnson and Howard obtained the transfer fraudulentity. The parties swearing to the capital being paid in when the agreement was made are F. Howard, Chas. Whistier, Edwin P. Metcalf and B. Blaisdell. Mrs. Watson, the bride's sister, wore black satistiped grenadine with thread lace. After the ceremony at the church there was a large reception, to which over three hundred guests were invited at the family residence, No. 372 Olive street, which was handsomely decked for the occasion. In the front parlor were groups of paims, forming a semicircular background for the bridal party, and the mantle pieces were banked with ferns, starred with white Marguerites. The back parlor had yellow for the color scheme and the beds of ferns were the groundwork for a bed of yellow roses. In the dining-room all of the decerations were red.

Mr. and Mrs. Goodwin will leave this evening for the East, via Niagara, and go on a tour down the St. Lawrence River. They will be absent about five weeks. When they return they will go to housekeeping.

THE SENATE'S SILVER VOTE

Speaker REED's boss rule in the House and the Administration's attitude on the silver question both sustained a tremen ock from the Senate yesterday. The House silver bill was transformed

into a free coinage bill by a vote of 43 to 24, or, pairs included, 51 to 32. The Administration's amendment to deprive silver notes of legal tender quality was defeated by 50 to 14. The Administration's bullion redemption clause was stricken out by a vote of 77 to 7. As finally amended with its free coinage provisions and its distinct declaration that the unit dollar may hereafter be either a silver dollar of 412% grains of standard silver or a gold dollar of 28.8 grains of standard gold, the Senate passed the bill by s vote of 42 to 25. The only Democrats who oted with the 25 against it were GRAY of Delaware, McPERRSON of New Jersey and Wilson of Maryland-all Eastern men. The 42 who voted for it were 15 Western Republicans and 27 Democrats.

Mr. HARRISON has announced that he will veto any silver bill passed by more Democratic than Republican votes. The voting shows that the requisite two-thirds cannot be obtained to pass this bill over the veto. But its passage by the Senate will put a great many of REED's Western will create a commotion in the House akin to revolt. It may play havoc with

There will be some lively think-ing done in administration circles for lington lobbying for the Ohio Wool Growers' licans. There will be some lively thinksome time to come.

THE citizens of Falls City, Neb., want to be thrilled on the Fourth of July. They want a man to go up in a balloon and perform on a trapeze or drop with a parachute. If the people of St. Louis had the selection of the man some census enumerators and school directors would be in danger, but there are plenty of voluntary fools in the world, and it is highly probable that the Falls City people will get ne to thrill them.

In the matter of granting a franchise to street railway company the Council last night rejected the per cent basis of compensation and reverted to the specific sum method. The sum in this case was wretchedly inadequate, but the chief obfection to it is that the principle is wrong. The only fair method of securing the compensation of the city for a franchise is by insisting upon a share of the earnings of Army of Northern Virginia.

428,000.

That Was the Census Count Up to the Close Last Night.

Miserable Showing Made St. Louis' Incompetent Enumerators.

Specials Put On to Becanyass District Which Need Beviston-How the Consu Corps Bas Reduced the Population by Negligence and Inefficiency - Supt Porter's Befusal to Carry Out the In tention of Congress Accounts for the Small Compensation-These Who Re fused to Answer the Questions Concern ing Their Physical and Moral Diseases t

The census count in the city of St. Louis up to 8 o'clock this morning was 428,000. Two hundred and eighty eight enumerators have been at work for fourteen days counting of the city, and their showing on the fourth only 428,000. This is a fact which neither Maj. eigel nor anyone else can deny, and in view of this fact it is not surprising that Maj. Weigel is afraid the census will fall below the hopes of the citizens.

Such a showing as that will raise a storm of indignation that will make the ears of the cen sus enumerators buzz. It is absolutely incor rect, and many thousands less than the actus census of the city. Those who have dealt with the statistics of St. Louis, and who have made careful and reliable estimates have placed the population far above this figure. I required Maj. Eugene F. Weigel and his corps of underpaid men to bring it down to 428,

BIGHTY-EIGHT STILL UNFINISHED.

ports yesterday, making 200 in all and leaving are finishing up odds and ends, which mean gence which have been reported. It is esti to more than 7,000, so St. Louis cannot hope for a showing of more than 435,000, which is a false and ridiculously absurd representation. Ten years ago she had 300,000; now, according to Maj. Weigel's census, 435,000, an increase of only \$5,000, or \$,500 a year. It is difficult to understand how any one connected with that incompetent bureau can be satisfied to send to Washington such evidence of laziness and incompetency as this report will be. Maj. Weigel has endeavored to throw most of the blame on the people of the city, but when they learn what a showing he will make for \$t\$. Louis they will put the blame where it belongs.

ongs.

"I am afraid," said Maj. Weigel, "that the census will fall below the hopes of our people," and no wonder, when it has been taken by as inefficients set of men as were ever gathered together.

Mr. Andrew Warren gives a fair sample of how they worked. "One of them came so my Mr. Andrew Warren gives a fair sample of how they worked. "One of them came to my house," he said, "while I was at dinner, but I sat down and gave him all the information he wanted about my family, then I said to him, 'Walt now and I will get the names, ages, etc., of the servants and give them to you." His answer was: 'Oh, never mind about them; I can come back and get them.' I knew that meant that they would be left out and I told him he could do nothing of the kind. I made himset there until I got the information and I made him put it down. He was a man totally unfit for the work and I saw it as soon as I laid my eyes on him, and I meant that he should not neglect his work if I could prevent is." This is a case in which, it is to be presumed, according to Maj. Weigel, I hat the people are mostly to blame. The whole trouble is that the enumerators are incompetent in the first place and in the second, that they either did not have or could not comprehend proper instructions. The instructions furnished supervisors by Supt. Porter contain the following paragraph.

The appointment of councerators should be made with reference to physical activity and to appress.

The appointment of enumerators should be made with reference to physical activity and to appress, neatness and accuracy in writing and in the use of feures. The census requires active, energetic men of good address and readiness with the pen. Only such can do the work with satisfaction to the Government or profit to themselves. These directions have been entirely ignored.

Many of the enumerators possess no physical qualifications whatever. They are old whitequalifications whatever. They are old white-haired men, who may be worthy of assistance and aid, but they are utterly unfit for this work and unable to perform the duties. Surely there were young men who could have been obtained for the compensation offered. And as for energy, the case cited by Mr. Warren shows what energy they possessed. There was a man who was in the house, easted in an easy chair; there was Mr. Warren, ready and anxious to furnish him the information, yet the man was so lazy that he did not want to take the trouble to write it down, and the instructions call for "readiness with the pen." This is the kind of work which has brought about the hideous showing which will be made for St. Louis, and the blame is not on the people.

SUPT. FORTER WILL PROSECUTE.

In in interview Supt. Proter has said that he intends to begin general prosecutions against those who refused to answer questions. The reason for this is easily given, but why should there not he other prosecutions?

The instructions say:
Is will be necessary for each enumerator, before
entering upon his duties, to receive a commission,
under the hand of the supervisor of the district so
which he belongs, and to take and subscribe an oath
or affirmation that he will fatthfully discharge all the
duties required of him under the law.

The law provides a penalty for an enumerator who hall, without justifiable cause, neglect or refuse to errorm the duties of his position, after accepting an ppointment and qualifying for the work. appointment and qualitying for the work.

Here is an opportunity for prosecutions which might bring justice on some of Mr. Porter's subordinates. There are enumerators who, in spite of their, oath, have not faithfully discharged all the duties required of them, and there are dogens of them who, without justifiable cause, have neglected if not refused to perform the duties of their positions.

without justifiable cause, have neglected if not refused to perform the duties of their positions.

Maj. Weigel yesterday put on duty four special snumerators to revise districts which he thought needed revision. There could only be need of revision because enumerators had neglected or refused to perform their duties, yet Maj. Weigel has begun no prosecutions against his inefficient assistants.

MAJ. Weigel's constant excuse is that the census will not come up to the hopes of the people because of the poor compensation, and there is a reason why ine compensation, and there is a reason why ine compensation is so poor. When the bill providing for the farm mortgage inquiry was before the House Committee Mr. Porter was called in. The object of the those questions was to show that under present system the farmers are being ground down, mortgages have to be plastered on their farms to obtain money to sustain life, and that those mortgages are held almost exclusively in New England and the East. New England and the East. New England and the East. New England and the Capital centers of the East naturally epposed the bill, and Mr. Hale, who represents a New England constituency, said on the floor that he and Mr. Porter would oppose it but Mr. Porter is an employe of the Government, whose only duty is to obey the instructions of Congress, and he had no right whatever to attempt with Espresentative Hale to influence legislation in the interest of Eastern capitalists. When ne went before the committee he objected to the introduction of the questions into the list and threw every possible obstacle in the way. He was asked what it would cost to gather those statistics and he replied: "It will cost a million dollars."

A BIT OF DOTBLE-DRALING.

enumerators would be paid 5 cents for each family as they are for each veteran soldier enumerated. Mr. Porter was somewhat surprised when Representative Dockery said to him: "It doesn's matter if it costs 32,000,000, we will do it in the interest of the farmers, Congress appropriated the 51,000,000, and the intention of Congress was that enumerators were to have been paid 5 cents for each family, but Mr. Porter has not carried out this intention. He does not offer the enumerators this compensation provided by Congress, and because Mr. Porter opposes the collection of that information. He does not wish to encourage the enumerators to be diligent in this respect, because in the census Mr. Porter wishes to carry out his own ideas and not the directions of Congress. The impudent questions about people's diseases and moral character are his own ideas, and he is going to prosecute those who have not answered the impertinent questions; but when it comes to the question of mortgages, when the evils of the present financial system which throws the homes of one section of the land into the pessession of another. Mr. Porter withholds the compensation which would have secured valuable statistics.

They Were Missed. Mr. J. Moller writes that the enumerato left a blank, for which, however, he has omitted to call. It has seven names on it. The following are also reported to the POST-DISPATCH by to-day's mail:

It is admitted now by all neglect. It is admitted now by all the directors that the extension of the school system recommended by Snpt. Long and by the committee composed of Alessrs. Barstow, Dozier, Holmes, Sheahan and Rogers, cannot now be accomplished before the opening of the next school term. As these recommendations were not made with a view to a future contingency, but because of a present necessity, the consequence of the board's failure to carry them out can be accurately estimated.

SUFT. LONG'S SUGGESTIONS.

At the November meeting of the board, Supt. Long submitted with his annual report the following estimate of the probable number of additional school room that would be needed on the opening of the schools in September.

tember.

1. Additions to schools already established:
To the Ames school, 2 rooms and a Kindergarten; Arlington School, 2 rooms; Bryan
Hill School, 4 rooms; Elleardaville School, 6
rooms; Irving School, 2 rooms and a kindergarten; Pope School, 4 rooms; Spring Avenue
School, 4 rooms; No. 5 School, 3 rooms; No. 8
School, 2 rooms.

2. Now school sites.

School, 2 rooms.

2. New school sites:
(a) A school building is needed west of Grand avenue between Laclede avenue and Olive street. This building should have as least twelve rooms, and should be so constructed and so located that it will admit of an addition of six or twelve rooms when needed,
(b) in the near future it will be necessary to locate a school at some point midway between the Bisir, Irving, Penrose and Spring Avenue schools.

their recommendations for increased accommodations. They recommended: To the Ames School, 2 rooms and a kindergarten; to the Arlington School, 2 rooms; to the Bryan Hill School, 4 rooms; to the Eleardsville School, 6 rooms; to the Irving School, 2 rooms and a kindergarten; to the Pope School, 4 rooms; to the Spring Avenue School, 4 rooms; to the No. 5 School, 3 rooms; to the No. 8 School, two rooms; to the Blair School, twelve rooms. New schools in each of the following districts: In district west of Grand avenue, between Laclede avenue and Olive street; in section of the city situated between the Humbolds, Lafayette and Lyon Schools; in Rock Springs School District; at some point midway between the Blair, Irving, Fenrose and Spring avenue Schools.

additions and buildings as being of the greatest est need:

To the Pope School, six rooms.

To the Arlington School, six rooms.

To the Spring Avenue School, four rooms.

To the No. 3 School, three rooms.

To the No. 3 School (frame), two rooms.

To the No. 11 School (frame), two rooms.

To the No. 11 School (frame), two rooms.

The cost of these buildings would have been stream of the school of the schoo

When, however, the board was reorganized by the Aulerius this report was referred to the new committee appointed by them and nothing has been since done with it. Inasmuch as the buildings which were recommended as being needed by the board were so recommended because it was believed that they would be fully occupied either at the opening of school or before the term had progressed far, it is perfectly fair to make, on the basis of that report, a computation of the number of children whom the public schools will not be capable of affording accommodations.

According to the reports, it is shown that the average number of pupils to a room is about 50. The number of rooms which ought be added to school buildings already erected as recommended by the committee, is 41. Multiplying 41 by 50 (the number of pupils to a room) and the total is 2,050. Accommodations for 2,050 papils will therefore be lacking next year in the old schools alone, to say nothing of the new school buildings which ought to be erected in the rapidly growing districts in the western part of the city.

It is eafe to say therefore that there will be 3,000 children kept out of the public schools next year who would attend if the accommodations were sufficient.

CROWDED LOWER GRADES.

At the Pope School last year the children attending in the lower grades were so numerous and the accommodations so insufficient that many of them could only be allowed to attend a half day, and yet notwithstanding this state of affairs the present board has actually done nothing to relieve the overcrowded district. The lower grades in nearly all the schools next year are bound to be so overcrowded that the teachers will not only be soverely handicapped in imparting instruction but the health of the ohldren will actually be endangered. Last year in many of the schools classes in the lower grades had as many as seventy pupils, and as the accommodations have not been extended this year it is

It has been specially planed for edu-cational as well as sight-seeing purposes, and more objects of interest have been crowded into its fifty days linerary than were ever before included in such a tour. London, Paris, Rome, Florence, Venice, Eigenea, the Italian lakes, the mountains of Switzerland, the most important historic and scenic parts of Central Europe will be visited, and the tourists will have a steamer ride down the beautiful and storied Rhine. Nobody will ever again have a chance to make a tour of this extent for the terms that are asked. It was specially designed for the St. Louis teach-ers at the suggestion of the Post-Disparch and though Cook & Son have enlarged on the original idea so as to include other teachers now at the Southern Hotel. Majand though Cook & son have enlarged on the original idea so as to include other teachers and their friends it is really a POST-DISPATOR tour. There is a great demand for bertha on all steamers sailing for Europe at this time and St. Louisans wishing to make the trip must apply at once to Maj. Hutchinson. A CONSTABLE'S PREDICAMENT. The Disastrous Consequences of a Replevis for a Pug Dog.

"Oh, my pretty little dog, my pretty little dog has been stolen," wailed Mrs. L. Milner as she rushed into Justice Spaulding's office yesterday morning with a vehemence that caused the Judge to stick the wrong end of his cigar in his mouth in his excitement.

'I've found him, too. He's up here in a

house on Chestnut street and I want you to get him for me. You can, can't you?' she sked, clasping her hands pleadingly before the Judge.

The necessary instructions were given and Clerk Ed Green was soon dasning his pen over a biank writ of replevin. Some time ago Mrs. Milner's little pug dog disappeared. She advertised in the papers and did everything she could to obtain possession of him again, but of so avail, until yesterday morning, as she was walking up Chestnut street, she espied him in a window of a house near Fourteenth and Chestnut street. The animal recognized her, and his yelps and barks of pleasure brought a boy to the window, who immediately took the dog away. Mrs. Milner puiled the bell frantically, but no one shewered its summons, and she ran excitedly down the street to the Justice's court. house on Chestnut street and I want you to

olog away. Mrs. Milner pulled the bell franticular, but no one shawired its summons, and she ran excitedly down the street to the Justice's court.

Soon Constable. Norp was given the necessary papers and, accompanied by the excited or "poor, dear little doggie' was. The door bell was rang but no one answered. Then the brawny constable's past training ome into on use. He placed his shoulder against the door, there was a creaking of in wood, a cracking of splinters and the door flew open with a crash. Up the stairs at full er speed ran the Constable, for in an upper story he heard the plaintive barking of the dimprisoned animal. On the third floor was a room the door to which was locked and from the door to which was locked and from the constable, so when the latter attempted to sleze him he resented any such lack of formality and ran under the bed. The long.

The animal was evidently expecting company, but he was not acquainted with the constable, so when the latter attempted to sleze him he resented any such lack of formality and ran under the bed. The long-tangle which and crawled after him. The dog ran out again, ure at his pursuer's predicament and danced around the room shaking the tiny bells on his harness until they jingled like a street care conductor's cost pockets.

HE WAS IN NO HURRY. How a Sprinkling Cart Driver Silenced as Impatient Gripman.

Yesterday afternoon a cable train was com ng down Olive street and as it passed Fifteenth street the gripman commenced to ring his bell as a gentle hint to a sprinkling cart which was about twenty-five yards aboad cart which was about twenty five yards ahead to get off the track. Just as the gong sounded to get off the track. Just as the gong sounded the patent centrifugal apparatus coased to distribute water on street and to distribute water on street and sidewalk and the colored gentleman who was driving the cart noticed the failure. With an air of deliberate nonchaitnee which would have made a hit on any stage he pulled up his team, and bending his body into a variety of shapes tried to look under the wagon and see what was wrong. But nature not having supplied him with an abnormally jointed spine he could not get to see round the corner, and he shandoned the attempt as philosophically as he had commenced it, and decided on making an investigation on foot.

By the time he had wound his roing several times around the brake handle the gripman's patience had become completely exhausted, and he shouted:

"What's the matter now?"

The darkey stopped is his preparations to dismount, and looking at the gripman with an expression more of sorrow than of anger, drawled out:

"Just gwine to see."

The passengers on the grip roared with laughter and the gripman looked as though he would like to crawl under the oar and escape notice. In the meantime the philosopher and sprinkiner got leisnrely down from his seat, crawled under the wagon and adjusted the tangled chains. Then he as deliberately as ever shock the dust off his clothes, mounted to his seat, untied the reins, pulsed off the track and resumed sprinking. The cable train pulled by, but the gripman was sad the balance of the trip. It was a good joke, but he failed just for the moment to see the point of it. to get off the track. Bids Are Beasonable-A Plain Statement

days than the centract price for the whole season of 260 days. In some cases, as is shown, the members of the association demand upwards of \$1,000 per district more for the short period than they asked last February for the entire season.

Another fact in connection with the claim that there is a sprinklers' combine, is that only members of the association which was erganized for mutual protection submitted bits for the surrendered districts. The figures were closely scrutinized this morning by Supt. Brown of the Sprinkling Department and they show that the price demanded for all the districts with the exception of the Fonrth is \$519 per mile for she remainder of the season. The demands made by the lowest bidders would indicate that this was the amount agreed on per mile for all but the Fourth District, for which Schureman Bros, ask over \$1,000 per lin ial mile.

President Burnet of the board said that he was satisfied the sprinkling contractors had fixed up a cembination. He could not state however, what action the board would take in the premises.

Sewer Commissioner McMath said the committee to whom the bids were referred would reach a conclusion te-morrow merning.

COMMISSIONER M'MATH'S OPIMION.

"There is a sameness about these bids," he said, "that looks suspicious and it is also passing strange that these men ask considerably more for five months' work than what they wanted last February for a a whole season's sprinkling. I cannot state, however, what the board will do in the premises."

Representatives of the association called at the City Hall this morning and said that the

Premises."

Representatives of the association called at the City Hall this morning and said that the Representatives of the association called at the City Hall this morning and said that the city would have to pay more if it kept the forty carts it now has engaged in the surrendered districts at the agreement rate of \$5 per day for each. They waited on Counsellor Bell and members of the board and indignantly denied that they had fixed up a combination. Supt. Brown of the Sprinkling Department said in reply to a question that while there were forty carts at work in the six districts at the rate of \$5 per day, only twenty-five were needed. He said he could take twenty-five carts and keep the districts damp at all times. This goes to show that the Association sprinklers struck hard at the St. Louis company at every turn. When it was necessary to engage the extra carts for these districts the association members insisted that forty carts would be required to do the work and

that forty carts would be required to do the work and

THEY CARRIED THEIR FOINT.

It was understood then and is now that all the expense incident to the employment of extra carts will be deducted from the city's account with Manager Joseph's company.

The cost per lineal mile, based on the lowest bids for the year, is \$386. According to the bids opened yesterday it would run over \$800 per mile for the entire season. This was shown this morning by the figures compiled in the Street Department.

A comparison of the figures given by the aprinking contractors in their bids opened yesterday with those of last February, when the contracts were let for the entire year; shows a very singular state of affairs.

The figures are here given. At the annual letting there were three bids submitted for district No. 3 which contains 7.67 miles. The bids were as follows: St. Louis I mproved Co., \$2,605; Coarrad Kuenne, \$3,065.72; S. S. Wade, \$3,200.

Yesterday there were three bids

Co., \$2,605; Coarad Ruenne, \$3,565.72; S. S. Wade, \$3,200.
Yesterday there were three bids for sprinkling the same district for a period of five months and five days, 101 days less than the time fixed in the annual contract. The bids yesterday were as follows:

Jacob Ffeffie, \$4,125; N. J. Hortman, \$3,900; H. C. Poliman & Bro., \$4,115. Increase of the lowest bid for the short period over that for the annual contracts, \$1,375.

FOURTH DISTRICE.

At the annual isting for this district, which has ten and a fraction miles, the bids were: \$t. Louis Co., \$3,460; George Schroll, \$5,871; S. S. Frade, \$4,600; Philip Fabion, \$5,000.
Yesterday only two bids were received. They were Schutemann Bros., \$10,780; H. C. Poliman & Bro., \$11,220; increase over the contract price for the season, \$7,320.

This district has 7 38-100 miles and like the others forfeited by Joseph's company is in South St. Louis. The bids last February were: 5t. Louis Co., \$2,340; A. R. Hoffman, \$4,000; Henry Mueller, \$3,195. The bids submitted yesterday were: George Schrail, \$3,925, J. P. Behuremann, \$3,830; H. C. Piolman & Bro., \$3,000; increase over the lowest bid for the year, \$1,490.

year, \$1,400.

TWELFTH DISTRICT.

The Tweifth District contains 9 24-100 miles.
Last February four bids were offered which
were as follows: St. Louis Co., \$3,105; George
Bebroil, \$3,71; August R. Hoffman, \$5,000; N.
J. Hartman, \$5,800.

J. Hartman, \$3,800.

The bids opened yesterday for the short period were: George Schroll, \$4,800; A. Hoffman, \$4,807; Henry Mueller, \$4,899; H. C. Pollman & Bro., \$4,825; increase over the lowest contract price for the entire season, \$1,695.

THIRTEENTH DISTRICT.

At the annual letting only three bids were received for the district which contains 7 44-100 miles. They were: St. Louis Co., 32,516; Jacob Pfeffle, 33,070; A. R. Hofman, \$4,800. Yesterday three bids were opened, which were entered as follows on the board's journal: Jacob Pfeffle, \$3,865; Henry Mueller, \$3,995; H. C. Pollman & Bro., \$3,985; increase over the lowest for the season's contract, \$4,349.

over the lowest for the season's contract, \$1,349.

FOURTEENTH DISTRICT.

Four bids were offered at the annual letting for this district which contains 7.55 miles. They were as follows: St. Louis Co., \$2,500; Hearry Muelier, \$2,995; N. J. Hartman, \$3,600; A. R. Hoffman, \$4,300.

Yesterday there were three bidders whose propessis were as follows: 'Henry Muelier, \$4,925; F. Ziegler, \$4,293; H. C. Pollman & Bro., \$4,280; increase of the lowest over the same for the season's contract, \$1,426.

The Sprinkling Contractors' Association, who had a monopoly of the bidding yesterday, deny that there was any concerted attempt to force any prices. The following table will show that there is a necessity of some explanation from at least three of the Association members. At the annual letting Schrell, Piffice and Muelier bid on districts Nos. is, is and is, respectively, and did the same yesterday. They are the lowest bidders according to the figures handed in yesterday, and if the board should accept the bids sach would receive a contract. Here are the figures:

Counselor Bell says that if the Board of Public Improvements is compelled by circumstances to accept the figures of the sprinking contractors, the city will not be the loser. "Even though she districts were forfelted," he said this morning, "and a new letting ordered, the St. Louis Improved Street Sprinking Company and the sureties are bound to save the city from loss on those districts. I am not sufficiently posted on the cost of street sprinking to say whether the demands of the contractors are unreasonable or not, but the fact remains that the St. Louis Co. and its sureties will be compelled to stand between the city and its loss on the relating of the surrendered contracts."

The oplaion is almost unanimous at the

the Beard of Public Improvements take the
same view of the situation it will
not surprise many if that body

sprinkling contractors deny this charge, as
will be seen below from the statements of
their representatives. Their bids are considered exorbitant by the beard, as they demand considerably more for sprinkling 199

The general Goverment has never made any appropriation to defray its share of the cost of the reconstruction of these streets, and for that reason the city has left these thorough fares remain in their old condition, while all the other down-town streets have been reconstructed. The Government owning the Custom-house property, which is bounded on the east and west by these streets, is responsible under the charter and ordinances for a large per centage of the cost of the improvements. Mr. Bell it is hoped will make some satisfactory arrangement by which the city can proceed with the work. The Lake Shore switchmen at Cottonwood were said to be at work, but on the city tracks everything was at a standatil. About midnight on Tuesday a number of Lake Shore strikers were awarened from sleep by members of the Switchmen's Committee for that line and told to report at the freight depot yards in the morning as a compromise was being talked of. The men who responded to the midnight call were men by Supt. Couch. It is said that the Superintendent "talked yeary aweetly to the Superintendent "talked very sweetly to work they would be discharged and new men employed. It is also said that they were promised police protection if they would return. Six men, three of them conductors and two of them committee men, agreed to go back if they were protected, and they went to the shop yards with the intention of reporting for duty. An hour later a reporter visited the shop yards, but no switchmen were at work, and it was said that the time for resumand it was said that the time for resuming operations had been postponed until afternoon. They make an earnest appeal to the people of the city for contributions to this most worthy charity. They need lemons, money, fruit and literature. Carriages are wanted also to enable the ladles to make the distributions. Lemons in particular are very much beeded, none having been received this year. Unless contributions are sent in before the next meeting, it is feared the mission will be obliged to disband.

MAY PUT OUT THE LIGHT. An Injunction Suit Filed Against the Mu nicipal Electric Light Co.

A suit which may result in plunging the city in darkness was filed in the United States Cir cuit Court this morning by Hon. H. D. Seymour representing the Brush Electric Co The suit is against the Municipal Electric Light & Power Co., which has the contract to light the streets of the city with electric arc lights. The potitioners claim Chas. Brush obtained the patent-right to the double carbon arc lamps and since then has secured all the rights on the automatic switch and other appliances which go to make up the lamps. The petition contains the proceedings of a similar suit against the Sperry Electric and Belvedere Electric Co. of Chicago, in which Judge W. B. Gresham of the United States Circuit Court of the Northern District of Illinois granted the Brush Cempany an injunction. Should an injunction, even a temporary one, be granted the Brush Cempany and if made perpetual the light will be shut off entirely or the Municipal company will be compelled to pay a handsome royalty for the right to use the lamps. There is as much possibility of Judge Thayer refusing to grant an injunction. If the defendants are made to pay a royalty, it will knock a big lump off their profits, as the contract was a close shave one at first. light the streets of the city with electric are

CLOSING SCHOOL EXERCISES.

The Entertainment Furnished by the Pupils of Miss Garesche's Seminary.

The young ladies at Miss Garesche's semin ry showed to great advantage in the enterainment provided at the closing school exercises. The exercises in calisthenics called forth much applause, the little girls going through the drill grace fully and accurately. A French dialogue followed and after that came some very fine singling. Miss Selina Altheliner came next with a recitation and Miss Josephine Newman played a difficult selection on the plane forte very well. A dialogue entitled "The Journey of Life" came next. Several took part in this, but the laureis were won by Miss Marie Mattingly, whose work was fine in the extreme for one as young. As the "little pligrim" she scored a distinct success and won much applause. After the entertainment was over the premiums were awarded. Among the prize winners were the Misses Lillie Lightholder, Marie Mattingly, Margaret Lee and Eva Strauss. exercises. The exercises in calisthenics

FREE COINAGE. Effect of the Senator's Action on Wall Street

NEW York, June 18 .- Judging from the effect on Wall street, yesterday's vote on the sliver bill in the Senate aid not go very far to settle the question. Bar silver would be worth about 129 should a free coinworth about 129 should a free coinage bill be passed, yet it is quoted to-day at 105 against 104½ last night. The Evening Post in its financial article says: "The stock market was stimulated this morning to a slight extent by the prospects of silver legislation indicated by the yoting in the Senate yesterday afternoon. The volume of business, however, was as small as ever and it was apparent that speculators would wait for something more definite before venturing so enlarge their lines of either long or short stocks very much."

SWINDLED OUT OF SHOES.

The shoes, worth 39, were sent by a boy who was met at the corner of Twentieth and Perry streets by the man Baker. The fellow was given the shoes, the boy being old to return in half an hour. Then it was to find that no such a man as Baker lived in that ricinity. The police have a good description of the swindler.

St. Louis Transfer Drivers.

The men worked all of vesterday and his morning did not put in an appearance to take out their trains. Mr. Klinger states that many of them tailed on him personally and he did not know who the man was who left the note, as the man rushed into the office and right out again without stopping to state who he was or make any expination whatever. To-day Mr. Klinger went among the men, he says, but could get no one to admit having authorized the note.

sions and clothing are cheaper yet, our drivers are receiving the same wages now as they did then."

Almost the entire business of the city will be prostrated while the strike lasts. There are ten freight depots belonging to as many different roads on the east side of the river and the Transfer company hauls nearly all the freight to and from these depots to St. Louis. It is utterly impossible for the bridge to handle more than a very small per cent of the freight which arrives on the east side for St. Louis firms, and all perishable freight is handled by the transfer company, as the bridge is generally several days behind with its business on account of the enormous amount offered is. A strike of the transfer drivers, therefore, practically prostrates trade between St. Louis and the East. The transfer company in receiving orders to-day to haul freight notified those giving them that they would move the freight as soon as possible, but would not make any promises when that would be.

on a railroad was applied for in the United States Circuit Court before Judge Thayer by Samuel H. West, representing the St. Louis, Arkansas & Texas Railroad Co. The petition states that the railroad company is spending large sums of money reconstructing its line in Dunklin and New Madrid Counties, Missouri, and has employed a large number of negrees. The inhabitants of the counties named have a prejudice against the colored race and are constantly throwing stones at the negroes while at work and stoning the cars they sleep in atnight. Judge Thayer said he could not grant an injunction against all the pecilion was made more definite and certain he would consider it. Mr. West withdrew the petition, but will present it again this evening in chambers.

LASSOED BY ROBBERS.

Kansas City Capitalist Robbed and Roughly Treated in Iowa.

Hamburg, Io., June 18.-Three desperat men with a lasso secured a \$10,000 check from J. H. Stewart, a Kansas City capitalist yesterday. Mr. Stewart was in a precarious condiriding near the city in a buggy when Johu F., Charles B., and "Duc" Golden threw the nouse of a long rope around his neck and dragged him over the dashboard. He was helpless in their hands and signed the check to escape. The trouble grew out of litigation over the title to lands claimed by the Goldens and by Stewart.

British Subjects to Demand Redress From the Celenial Government.

By Telegraph to the Post-Disparch.
BAY St. GEORGE, Newfoundland, June 18. redress of the injuries the citizens of the French shore are suffering through the fishery treaty complications. Earnest speeches were made and much indignation aroused. "At St. John's there is great ignorance on the part of everybody, and particularly the officials, as to real magnitude of the injustice done on this coast. Dr. Howley sailed on the steamer Volunteer for St. Jehns. He is a man of remarkable intelligence and force of character, has been here nineteen years, is in thorough sympathy with the people and has a better knowledge of the complications than any other man in Newfoundland. He will arrive in St. Johns Friday and at once see the Governor and Sir Wm. Whiteway, the Premier. He will demend compensation for the losses suffered by the fishermen through the recent interference of French fishermen who destroyed and took up the nets of British subjects. He will ask, and expects to secure, the appointment of a commissioner to determine the private claims for damages and the general loss to the people whose chief livelihood is vitally affected by the interference with the herring fishery. Dr. Howley will give much needed light to the colonial officials, and will ask that nothing be done in London until the case is better understood by an expression of sentiment of the people of the French shore who have all at stake in the matter, and who are liable to show how small is the real value of the shore fishery to the French; yet how old treaty rights paralyze the business of the shore's development of the adjacent territory in land, because of he muddles and disputes as to what right the treaty really confers. Dr. Howley is not so much in favor of money compensation to individuals as an appropriation of public money for needed works on roads, ferries, etc. This part of the island is a wilderness. Although 12,000 people who live on the French shore pay \$100,000 a year for colonial revenue they get nothing in return, and are greatly disgusted with the St. Johns government. everybody, and particularly the officials, as to real magnitude of the injustice done on this

Blankenbaker, who owns a large farm fifteen miles east of Louisville, told scandalous stories about Dr. Berry which reached his ears. An apology was asked for and refused. Dr. Berry challenged the former and it was accepted. They met back of Blankenbaker's house. The paces were stepped off, the men took positions and faced each other. As the word "fire" was about to be given, Blankenbaker threw up his left hand sid said: "I do not want to get shot or shoot Dr. Berry for what might have been an inisunderstonding." A life was too valuable to sacrifice for so petty an offense and he would apologize. They shook hands. Blankenbaker, who owns a large farm fifteen

NEW YORK, June 18.—Mrs. F. G. Hudson, one of the most troublesome confidence men known to the police of New York and women known to the police of New York and Boston, put an end to her life early yesterday morning by taking iaudanum at the boarding-house of Miss Anna Gass. The story of the weman's life is full of strange incidents, and litustrates with painful force the ease with which some women can drift from a life of respectability to an existence of shame and crime. Mrs. Hudson was born in Baltimore forty-five years ago. She was highly edu-cated and had all the comforts a luxurious home affords. She had been in society but a short time, when she met and married Rev. David Hudson, a young Methodist minister, who was young Methodist minister, who was pastor of a church at Snow Hill, Md. Tiring of the ministry the Rev. Mr. Hudson, who was a man of some wealth, began the study of medicine. When he received his degree he moved his family to Medway, Mass., where he opened an office and began the practice of his fession. The life of a country doctor was not such as Mrs. Hudson had been accustome to. Its rural simplicity wearled her and she soon found occasion to quarrel with her husband. To break the monotony she began to give expensive entertainments and in very short order enveloped him in debt. Broken A meeting of citizens was held here yesterday in health and spirit, Dr. Hudson died June 28, 1876. He left little or no property and thi

SHE BEGAN A LIFE OF CRIME, that only ended when she raised a vial of laudanum to her lips yesterday and drained it. She traveled about from one town in Massachusetts to another, swindling hotel proprietors, imposing upon ministers and de-frauding merchants by obtaining goods under false pretenses. Wherever she went she took her two children with her and was enabled by her polished manners to reduce the art of living on nothing a year to as fine a point as Thackeray's inimitable little schemer, Becky Sharp, of "Vanity Fair" fame. She met her first reverse in New York in March, 1885. She had been living at the Coleman

Father Crafts of Dakota, went up to see the sick brave yesterday. Otakte was "heap pleased" he said, to see his friend, but his heart was in Dakota and there he would like to die. Father Crafts will administer the sacrament to the dying Indian to-day. Gen. Obeline sent a cablegram to Buffalo Bill yesterday asking if he would pay an interpreter to go with Otakte to the Pine Ridge agency. The physicians at Believue say that the warrior has little more that a week to live. It is doubtful if he could stand the journey. He is only 18 years old.

ST. LOUIS. WEDNESDAY EVENING. JUNE 18, 1890.

REASON NO. L.

he Electric Wires Should Be Flac

The FOST DISPATCH to-day presents the first reason why the deadly wires should be placed under ground. Possibly by the meeting time of the next Legislature in January, these reasons will be sufficiently numerous to convince legislators.

There was something very nearly approach In a panic at the corper of Broadway and Pine yesterday afternoon. A wire was being strung along Pine street, and at Broadway it snapped in two. The broken wire feil across the overhead wires of the Scallin electric line and the result was remarkable. The wires seemed to be on fire, and, indeed, the smaller one soon began to burn up. There were successions of most brilliant lights, and even the tracks seemed to be a mass of fire. There was a general stampede to safe ground, on which the spectators stood while the linemen used every endeavor to break the connection and restore order. After a few minutes they anceseded, but in the interval a team of mules drawing a Mound City car had been struck and badly paralyzed.

But the most serious result of the accident was not apparent to the crowd on the street. The current by some means became connected with the wire leading to Mr. Wm. H. Swift's telephone, which was promptly burned out. Mr. Swift was sitting in his office near the linstrument and was very badly "shocked." For a time he was helpless and almost unconscious, though towards evening he recovered. Mr. Swift is new distinctly of opinion that the electric wires should be placed underground and an efficient system of insulation adopted. ng a panic at the corper of Broadway and

PRESIDENT VON DER AHE is having a lively time of it with his pet Browns. man, and yesterday the players were twisted around at Toledo in a most confusing man-ner as the result of a

tionals, whom Mr. Von der Ahe signed and took on the trip with him Monday evening, was played at first. Kane was given a trial in the Browns before and released. Sweeney leit for Toledo last night and no doubt will play with the club to-day.

On top of all this trouble comes the news of the release of Pitcher Elton Chamberlain, the star twirler of the American Association. Mr. Von der Ahe has sold him to Columbus for a num said to be less than \$1,000. Chamberlain was the first pitcher in the American Association last season with the possible exception of Mark Haldwin of Columbus, now with the Chicago Brotherhood team. This year, however, Mr. Von der Ahe has got but little work out of his star, and that work has been of the poorest kind. It has been claimed by him that his arm has been out of condition, but there has been a belief prevalent that he did not want to pitch, and was anxious to secure his release. Mr. Von der Ahe tired of paying a salary of \$3,100 for the season to a man who was doing no work and has been negotiating lately to sail the star twirler to Columbus. The deal has now been consummated as far as the two clubs are concerned, but whether Chamberlain will go to Cotambus remains to be seen. He left toe city last night ostensibly for his home in Buffaio, but as the Columbus management have been corresponding with him and he made some inquiries concerning the place before he left her her presumption is the will visit there. They may succeed in obtaining his consent to play there, but many are of the opiaion that he wants to piay with the Players' League and will not remain in the Association. He might be induced to go to the National League. Chamberlain is of a sailen, suiky disposition and is very hardword to manage. If his arm is really in shape, however, he is a great pitcher.

A short time ago Mr. Von der Abo had trouble with Pitcher Stivetts, and the laster has been doing very poor work eversines. It is now stated on good authority that negotiations are pending to exchange him for another

The track at Sheepshead Bay was thronged, there being probably 25,000 peeple present, although many placed the number as fully twice that figure. It was the fourth race on the eard and after the third race had been run the crowd made such a rush to bet their money on their favorites for the greatest race on the American turf that the ninety-two bookmakers at the track found it impossible to handle all the business effered them. Nine horses atarted in the race, Salvator, Tenny, Raceland, Firenzi, Longstreet, Prince Royal, Cassius, Strideaway and Montague. The two first named were even favorities, 8 to 8 being offered against either, while as good as 5 to 1 could be obtained against Raceland and 10 to 1 each against Firenzi and Cassius. Good management is what has make Ward's team a success. A more thoroughly disciplined team than Ward's it would be hard to find. He is firm but kind to find.

heme Campbell's horse began increasing his lead. Murphy, now thoroughly alarmed plunged his spurs into salvator's flanks and brought down his whip with a resounding whack. The game celt totered and staggered, but dashed forward, and a furiong from home had his head at Cassins' shoulder. Tarai rode like a demon to keep his mount in the lead the remaining brief distance between him and victory. Cassins was a tired horse, however, and Salvador slowly gained on him until he got his head and neck in front and he kept it there until the wire was reached. Tenny flushing third two lengths away, with the disappointed and chagrined Garrison riding as though his life depended on the race. Strideaway was fourth, Raceland, fifth, Firenzi, sixth, Frince Royai, seventh, Montague, eighth and Longstreet, ninth. A scene of the wildest enthusiasm followed the victory of Salvator. The air was rent with cheers and hats, parasols, handkerchiefs and umbrellas were sent sailing skyward. When Murphy returned and was weighed a floral wreath bearing, the inscription, "Suburban, 1890," was pisced around his neck, and he was carried triumphantiy away by the eathusiastic backers of Salvator. The colt himself was surrounded by an admiring crowd as he stood in the track panting hard after nis terrific race.

Soon after their arrival the eldest wood DeMott, Jr. Mr. DeMott is connected with Warner's molding mill and is one of the most prominent young men of the place. Last summer he asked Mrs. Griffin for her daughter's hand in marriage and the young people agreed and the wedding was set for last Wednesday. The arrangements for the event were all made and the guests invited, and when the evening arrived Mr. DeMott started for the home of his intended bride. He was met on the threshold by Mrs. Griffin who surprised him by refusing him admittance to the house. She had a very brief interview with him and gave him to understand that he need no longer expect to be received in the house. He then tried to gain entrance by force, but was prevented and finally went away. He remained in the neighborhood all night watching for ida. He believed she was being kent under restraint, but he hoped she would finally get free and come to him. The following day DeMott retraced his steps. He again went to Mrs. Griffin a house, but Mrs. Griffin again gave him the cold shoulder. He next wrote a letter to his sweetheart, in which he stated that if she desired to see him allve she had better come to him quick as he was going to kill himself. After waiting for some time he received the brief reply "I den't care." DeMott jumped into a weil, breaking his arm and otherwise injuring himself. He was, however, rescued and taken to his room. He was able to sit up at a window of his chamber yesterday aftermon and was pleased to see Miss Griffin approaching the house. When she came in front of the house she did not enter but merely bowed to DeMott and passed on. He motioned to her with his hand to come in and see him but she paid no attention to this. NEW ORLEANS, La., June 18.—The lottery bill was reported back to the House to-day. In substance the majority report (signed by the six iotteryives) says conflicting and mis-leading reports as to the available resources of the State have crept into public print in a manner calculated to heat passions and warp elseding reports as to the available resources of the State have crept into public print in a manner calculated to heat passions and ward judgment. Another reason is the present terrible financial condition of the State, upon which no ray of hope has yet been thrown by any departments of Government. About seven-eighths of Louisiana's revenue is derived from such citizens as live immediately behind levees. The report calls attention to the regularity of floods each season and to the regularity with which men living behind levees are called to do battle to preserve their land from the greed of the mighty river. It calls attention to the ragged openings at present in the levees and the economy necessary in rebuilding them. The people of the State are not blind to this condition of affairs, says the report. They know why it is that so little is done for schools, levees, insane, deaf, dumb, hait and blind. They realize that so far as the ability of the commonwealth is concerned the veterans who stood between the people and the invader as a stone wall of valor, might ask for alms on the street corners. It says the offer of Mr. Morris is a solution of the whole difficulty. It means levees, schools, pensions, charities and the extinguishment of the State debt. The minor-live reports all states are in the levees and scratched the caucus, and the charics are converted and scratched their names off the lottery.
